Sections 3.3-3.4: Gymnosperms and Angiosperms

Gymnosperms vs. Angiosperms

Pine Tree

vs.

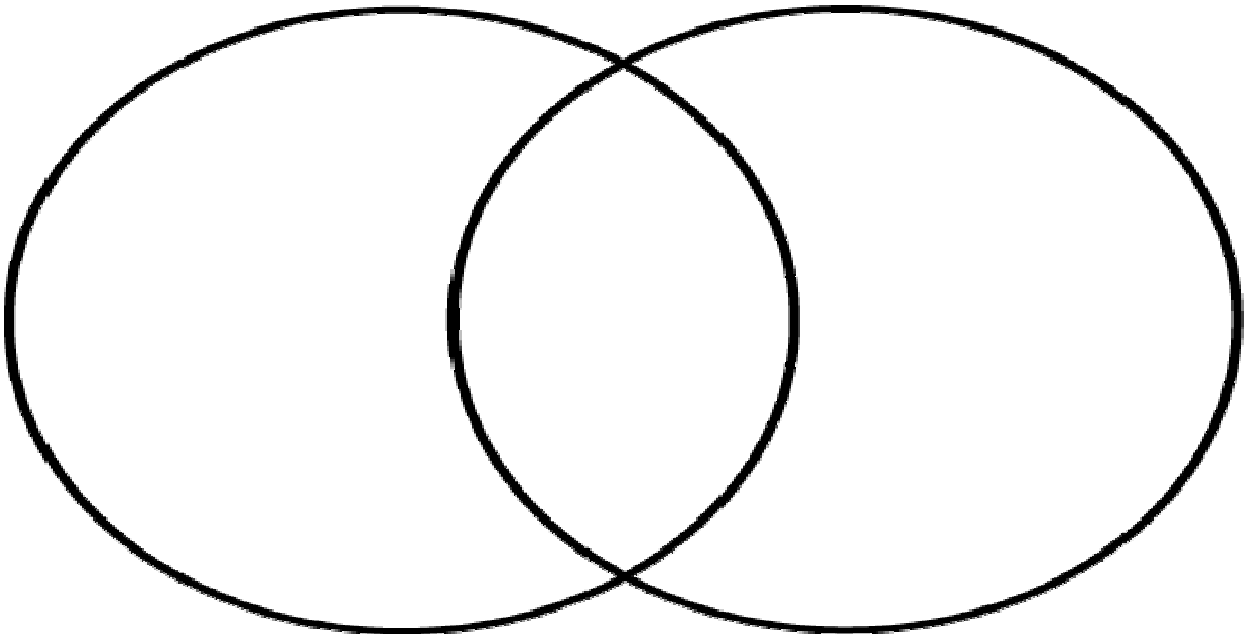

Apple Tree

1. How are the reproductive structures of a typical gymnosperm (like the pine tree) and a typical angiosperm (like the apple tree) different from one another? How are they similar to each other? Complete the venn diagram below to explain.

Gymnosperms

Angiosperms

2. How is pollination similar in both types of plants?

Pine Cone with Seeds

Apple with Seeds

3. How are the seeds of an angiosperm different than the seeds of a gymnosperm?
